MANAGEMENT DISCUSSION AND ANALYSIS

a) Industry: The global pharmaceutical market is now estimated to be US \$ 1 trillion and is growing at an annual rate of about 4-5 %. Even though North America, Japan and Europe constitute about 70% of the global pharmaceutical market, continued rise of emerging markets is a key trend that will shape the Indian pharmaceutical industry in the coming years.

b) Outlook, Risks and Concerns: Though in the world pharmaceutical market, India is ranked 3rd in volume, it has a negligible share by value and ranks 13th. Branded generics constitute 70% of Indian pharmaceutical market. Indian pharmaceuticals exports have increased from US\$ 2 billion in 2006 to about US\$ 10 billion in 2014. Indian companies are focusing on global generic and contract manufacturing alliances. India is also fast emerging as a preferred pharmaceuticals manufacturing location. Several large selling drugs going off patent over next few years and increasing use of pharmaceutical generics to reduce healthcare cost will provide attractive growth opportunities to generics manufacturers and thus Indian pharmaceutical industry is poised for an accelerated growth in the coming years. The Government of India has unveiled 'Pharma Vision 2020' aiming at making India a global leader in end-to-end drug manufacturing. However, the growing ambit of drug price control also poses serious concerns for the industry. Further, poor public healthcare funding and infrastructure, low per capita consumption of medicines in developing and under developed countries including India, currency fluctuations, regulatory issues, inflation and resultant all round increase in input costs are other causes of concern.

c) Financial Performance and Operations Review: The Company generated a revenue of ₹6,018.20 lacs for the Financial Year and incurred a loss of ₹139.68 lacs after taxes. The last few years have been tough for the Company, with the added operational expenses of Unit-II. The performance of Unit-I has been steady, but Unit-II required substantial additional resources for product registrations in the regulated markets and market development. Increasing debt compounded with heightened finance/ interest cost was creating additional pressure on the resources of the Company and jeopardizing the well established steady business of Unit-I. Further, sky-rocketing cost of compliance in regulated markets which is the target for Unit-II had created substantial uncertainties for the long term interest of the Company and other stakeholders. With these factors in mind, the Company passed one Resolution by way of postal ballot vide notice dated 12th February 2014 to enable the sale of the loss generating Unit-II of the Company and the Resolution was declared passed by the Chairman on 04th April 2014. Subsequently various offers were evaluated and the Company sold its Unit-II manufacturing unit situated at Sector III, Pithampur, Dhar, MP together with its employees by way of a slump sale during the financial year. This sale of the loss generating Unit-II of the Company has substantially reduced the strains on the resources of the Company and the future prospects of the Company look brighter than ever. No material changes or commitments affecting the financial position have occurred after the end of the financial year till the date of this report.

d) Forward Looking Statements: Forward looking statements are based on certain assumptions and expectations of future

The Company's actual results, performance or achievements could thus differ materially from those projected in any such forward-looking statements.
